MEMO

On petitions received by the Dewan.

No.

Date of petition. 15<sup>th</sup> Mar 1916.

Name of petitioner. Mr. H. Seshagiri  
Res. P. A., Bombay.

SUBJECT.

Praying for a  
Scholarship of about  
Rs 40/- to study  
history at the J. J.  
School of Arts, Bombay.

2 Forwarded to the Secretary to  
Government, Department of  
Education & Agriculture.

23.3.16. *AS*

3 It seems to me to desirable  
to have a young man trained  
in history. It is difficult  
to find chemistry students.  
If the young man's University  
career is good his application  
may be favourably considered.  
Please ask him to send an  
app<sup>n</sup> in the proper form with  
testimonials, etc. Meanwhile  
consult the J. J. School of Arts  
Committee about the award of a  
scholarship to study history.

*Submitted to His Highness.*

\* Paper and disposal. 21 (1)

(1) The Inspector General of Education recommends the grant of a scholarship of the monthly value of Rs.50 for the study of pottery in the Sir J.J. School of Arts, Bombay, to a Science graduate. The course is for three years, and a premium of Rs.1000 has also to be paid.

× 天

(2) <sup>x</sup> The Industries and Commerce Committee are also in favour of the grant of a scholarship for the purpose.

(3) There are good deposits of kaolin in the State and it is therefore necessary to train a local man in connection with this industry.

\* Page 6 of office notes.

(4) The Members of Council are in favour of the grant of a scholarship, but the<sup>x</sup> Second Member suggests that as the scholarship is to be awarded from next year, the Inspector General of Education may be requested to submit his proposals in May next after inviting applications.

(5) A scholarship for the study of pottery for a period of three years as recommended by the Inspector General of Education may be sanctioned. He will be - authorised to call for applications from qualified - graduates and submit the names to Government for sanction and make the necessary arrangements for training a candidate in the institution next year.

I am Geology Graduate from the Central College, Bangalore; I am a Mysorean & a Mysorean to the very letter; I belong to the Shimoga district.

After graduating, I came here with the intention of studying Law, but, fortunately or unfortunately, this idea has been tempted away from me as a result of having bestowed some thought on the causes that have brought Bombay to such eminence in the British Empire. I cannot but think now at least, that a surer and a better way, not only to enriching ourselves but also of developing the resources of our state, is to start various " Industries " in our state wherever the local conditions are likely to afford an opportunity of their being developed there.

Our state seems, of all other things specially favourable for the Pottery developement; Mr. Fern who is the head of the pottery department in the J.J. School of Arts, expressed the same opinion to me. As there was some scope for him to make his own observations of the local conditions during his stay, in our state, when his services had been kindly lent to our state by the Government of Bombay, and as such, his opinion must carry some weight.

Mr. Fern knows that if he were to admit a Geology Graduate to the Scientific Section of the Pottery department, he would be deviating from the rule of admitting only chemistry & Physics graduates, but still, he has promised to admit me to the same probably because, I could convince him that Geology graduates also have got their own good points which the Chemistry & Physics graduates do not possess, and as such these latter also have got just as much claim, if not more, of being admitted to this section.

The course in instructions in this section extends over a period of three years, the fee for the whole course being Rs.1000/- payable by 3, instalments, the first one being of Rs.400/-; the first term of this section begins in June.

16  
✓

So then, if you be pleased to grant me a scholarship of about Rs.40/- per mensem, I mean finishing this course, and thereafter my share of ---- services in the development of the Industrial resources of our state will be placed at the disposal of our benign Government.

You have all the while been trying your level best to awaken the people of our state to the great necessity particularly for this phase of activity, and having in our state at the service of the public, people, trained in all Industries that can profitably be started in our state is not at all inconsistent with this idea of yours. If our state cannot wake up to this call of yours I am sure it shall have to wait for generations to come, to get another Dewan of your stamp, who could work with so much of sincere enthusiasm for the progress of our state; you have surpassed the past and the future that can surpass you is not near at all.

I humbly request you to excuse me for the uncalled for, though not unwarranted, observations of mine.

Eagerly awaiting your favourable orders.

I have the honour to remain,  
Sir,

Your most obedient servant,

*H. Seshagiri Rao.*

Secretary, Industries and Commerce Committee.

To

P. G. D'Souza, Esq., B.A., B.L.,

Secretary to Government, Departments of Education  
and Agriculture, Bangalore.

Sir,

With reference to your letter No. 5411-2/Edn.15-15 dated the 27th March 1916, requesting the views of the Committee with regard to granting a scholarship to a graduate to study pottery in the Bombay School of Arts, I have the honour to state that this subject was considered by the Committee at their meeting held on the 29th April 1916. The Committee are of opinion that sufficient kaolin deposits have been located in the State to justify an inference that the Industrial utilisation of kaolin might turn out to be a subject of practical importance. They have accordingly decided to recommend Government to sanction a scholarship to any selected candidate for training in the Pottery Section of the School of Arts, Bombay.

I have the honour to be,

Sir,

Your most obedient servant,

C. Ranganatha Rao Sahib

From

Rao Bahadur

M. SHAMA RAO, Esq., M.A.,

Inspector-General of Education in Mysore.

To

P. G. D'Souza, Esq., B.A., B.L.;

Secretary to the Govt. of H. H. the Maharaja of Mysore,  
Education and Agriculture Departments.

SIR,

With reference to your letter No. 5411-2/Edn. 15-15<sup>50</sup>, dated 27th March 1916, I have the honor to inform you that the Principal of Sir, J.J. School of Arts, Bombay, has, in his letter No. 316, dated 18th September last, expressed his willingness to admit a Mysore Government student into the Scientific Section of the Pottery Department. The period of study extends over three years, and the candidate to be admitted must be a graduate in Chemistry and Physics or be a passed student of a recognised Technical College or Laboratory. Each session commences on or about the 10th of June and ends on the 15th April. The session is divided into two terms, the first term from the 10th June to the 10th October, and the second from the 10th November to the 15th April. A premium of 1,000 rupees is required to be paid for the full 3 years course of study in the Laboratory either in a lump sum or in three equal annual instalments, all students being liable for the entire premium if they do not complete the course. The students are supplied with all the accessories required for analytical purposes on condition that all breakages are made good, but they must provide their own books, tools, instruments and other necessary articles.

The Principal in the letter quoted above also states that he can admit a Mysore student from the 10th November next when the second term commences. I am not sure whether in this part of the year a qualified Science graduate can be selected out of the applicants whom we may invite, and it seems to me desirable to send a student to join from the 10th June 1917, when the school opens afresh and the first term commences.

As regards the scholarship to be given to the student, I am of opinion that to attract a really capable graduate, especially when his prospects are not guaranteed, the scholarship may be fixed at Rs. 50/- per month. The cost of boarding, lodging and connected charges in the Bombay City may be taken at about Rs. 30/- a month per head, and the balance of Rs. 20/- will go towards meeting the cost of books, tools, instruments and other articles required and for the expenses of travelling during the vacations. The total cost will thus amount to,

For Scholarships Rs. 600/- a year

Or for three years Rs. 1,800.

The premium to be given Rs. 1,000

Total. Rs. 2,800 for the whole course.

I request that Government may be pleased to sanction these proposals and provide the necessary funds in the Budget of the coming Official year. A sum of about Rs. 400/- may be needed in the present Official year, when the student leaves in the beginning of June next for advancing a portion of his scholarship and a portion of the premium to be paid. This amount will be met by reappropriation out of the allotments in the present year.

I have the honor to be,

Sir,

Your most obedient servant,

*B. S. Hanumanth Rao*

INSPECTOR GENERAL OF EDUCATION.
